Testimonials from Recipients of Awards Funded by AACAP's Campaign for America's Kids

### KRISTEN KIM, MD

**Educational Outreach Program for General Psychiatry Resident Awardee**

"As a newer member of the AACAP Program Committee, I was thrilled to see our months of work come to fruition. This year's annual meeting also allowed me to reflect on my interests, values, and goals for my career as I approach graduation from fellowship next year. All of this was made possible by the Educational Outreach Program."

### BHARAT SANDERS, MD

**Educational Outreach Program for General Psychiatry Resident Awardee**

As a Triple Board Resident striving to acquire knowledge, establish professional networks, and foster connections, I am deeply grateful to AACAP for serving as my educational and professional haven during this critical phase of my career. Your generous grant not only enabled me to showcase my research on both national and international platforms but also empowered me to give back by mentoring medical students and prospective candidates interested in Child Psychiatry programs."

### JESSICA STEPHENS, DO

**Educational Outreach Program for Child & Adolescent Psychiatry Resident Awardee**

"I have truly been blessed by all the amazing opportunities and mentorship AACAP has provided me throughout my transition from medical student to fellow (and soon to be early career!). It has been an honor to engage with and involve trainees at all levels from across the nation and something that would not have been possible without your support. For that I am so thankful."

**AACAP's 2023 Annual Meeting in New York saw a record-breaking 1,492 medical students and residents—a testament to our workforce development and recruitment efforts. For those who have already contributed, we extend our heartfelt gratitude for your support to sustain and expand these impactful programs.**
